

Instructions for the Crowdsourced TA Sessions

Instructions Used in the Crowdsourcing Platform

1. Go to *[URL to the TA framework]*
2. Answer demographic questions
3. Complete a training
4. Conduct 2 tasks while speaking out your feelings and mind

Important:

- Screen and voice are required to be recorded
- If you remain silent you will not get paid

General Instructions

This task is a **10 minutes experiment to test the ease of use of an application**. It is **not an exam to test your capabilities**. So, perform tasks without worry about doing something wrong as **there is no wrong way** in the test.

The test has **three parts**:

Part 1: Demographic questionnaire

You should **answer the questions** providing valid information about your background

Part 2: Training session

You watch a **short demo video** for the next part

Part 3: Searching tasks

- **You must speak out** your feelings and mind throughout while testing an application.
- Your **browser, audio, and (optional) video are recorded** for our analysis.

IMPORTANT: You will be informed before the audio and video recording starts. If you feel uncomfortable sharing the screen, audio, and video recordings. Please, do not proceed with this task.

Payment information

- After you finish all the tasks, you get a **Payment-id**.
- Save it and use it as a reference for your payment.
- **If you do not speak at all, you won't get paid.**

Feedback and help

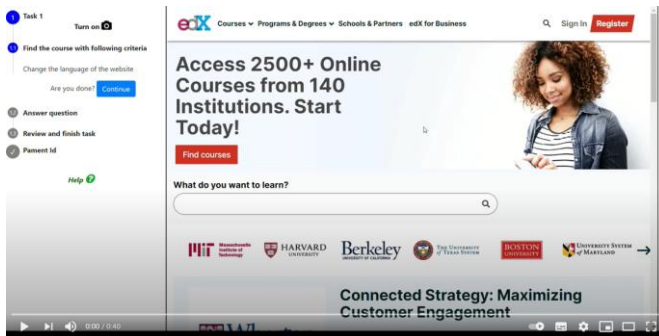

If you feel inconvenience or face issues during the experiment, please write to us at *[Support Email Address]*

Use of recorded data

All recordings will be evaluated by a small group of researchers. The recording will not be shared otherwise, or published online. The video recordings will be deleted after evaluation, at latest 31. December 2021. The screen recordings will also be deleted after evaluation, at latest 31. December 2021, if they contain any personal information. The audio recording will be transcribed and then also deleted. All other data will be anonymized before achieving or sharing.

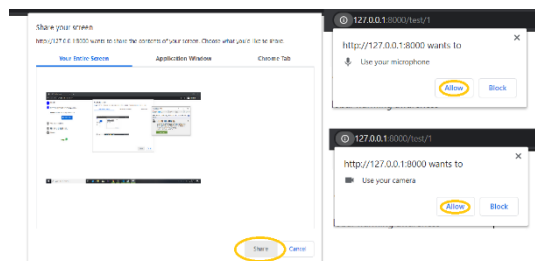

Training Instructions

The following video shows what we are expecting from you:

Important

1. To start the task, you should **allow** permissions for Screen Share, Mic, and Camera as shown below:

The camera recording is optional, you can disable it later. Make sure to maximize your browser window for the screen recording and to not display any private information during the recording session.

2. Follow the steps on the left panel to complete the tasks:

1

Task 1

1.1

Find the app with following criteria

Name: Global warming awareness

Start Task

1.2

Answer question

1.3

Review and finish task

2

Task 2

Help ?

3. If you **do not speak** or remain silent, the following message will be displayed:
