

## Conducted Tasks Information

### Tested system

EDX learning platform<sup>1</sup>

### Task 1

Imagine that you have an environmental science test this week on Global warming and its effects on the environment. Your teacher suggested the website on the right to prepare for the test. A friend told you about the course “Global Warming Science”. Find it and find out its instructors

### Completion condition

Expected course's instructors are found.

### Question for crowdworkers

Enter the name of one of the instructors

### Task 2

While studying Global warming, you got interested in the “Climate change” topic. Now you want to find advanced courses about it, but only in the field of Energy and Earth Sciences

### Completion condition

Courses on the topic are found using at least one of the filters.

### Question for crowdworkers

Enter the name of one of the found courses
